In+Out: \$150 per pax

Easy Process

Step 1: Passenger Access to Immigration Area
Step 2: Meet & Greet
Step 3: Fast Track

STEP 1

AIRCRAFT *LANDING*

- After the plane lands, each aircraft is assigned a predetermined bridge at Liberia Airport, with a total of six available positions. Each bridge corresponds to a unique walking distance to the immigration room.
- The pathway from the plane's door to the main entrance of immigration traverses sterile areas where external representatives do not have access permits. In instances of high flight arrivals and congestion, authorities may assign a remote location outside the terminal. In such cases, passengers are required to approach from the outside, walking and entering the immigration rooms.

STEP 2

PASSENGER *ACCESS TO IMMIGRATION AREA*

- Access from the bridge is located on the second level, and passengers are required to use the escalator to descend to the first level, providing direct access to the immigration rooms.
- The escalator guides guests to the immigration entrance and serves as a meeting point with GA representatives.

STEP 3

MEET & GREET *& FAST TRACK*

- Our team will always be positioned at the foot of the stairs and beneath the main immigration access sign. Additionally, they will be holding signs with the hotel logo and the guest's surname for easy identification.
- The GA team accompanies guests through the Mini-VIP Lounge, where they can enjoy grab-and-go drinks and snacks, and head towards the fast-check line.

VIP LOOK & FEEL

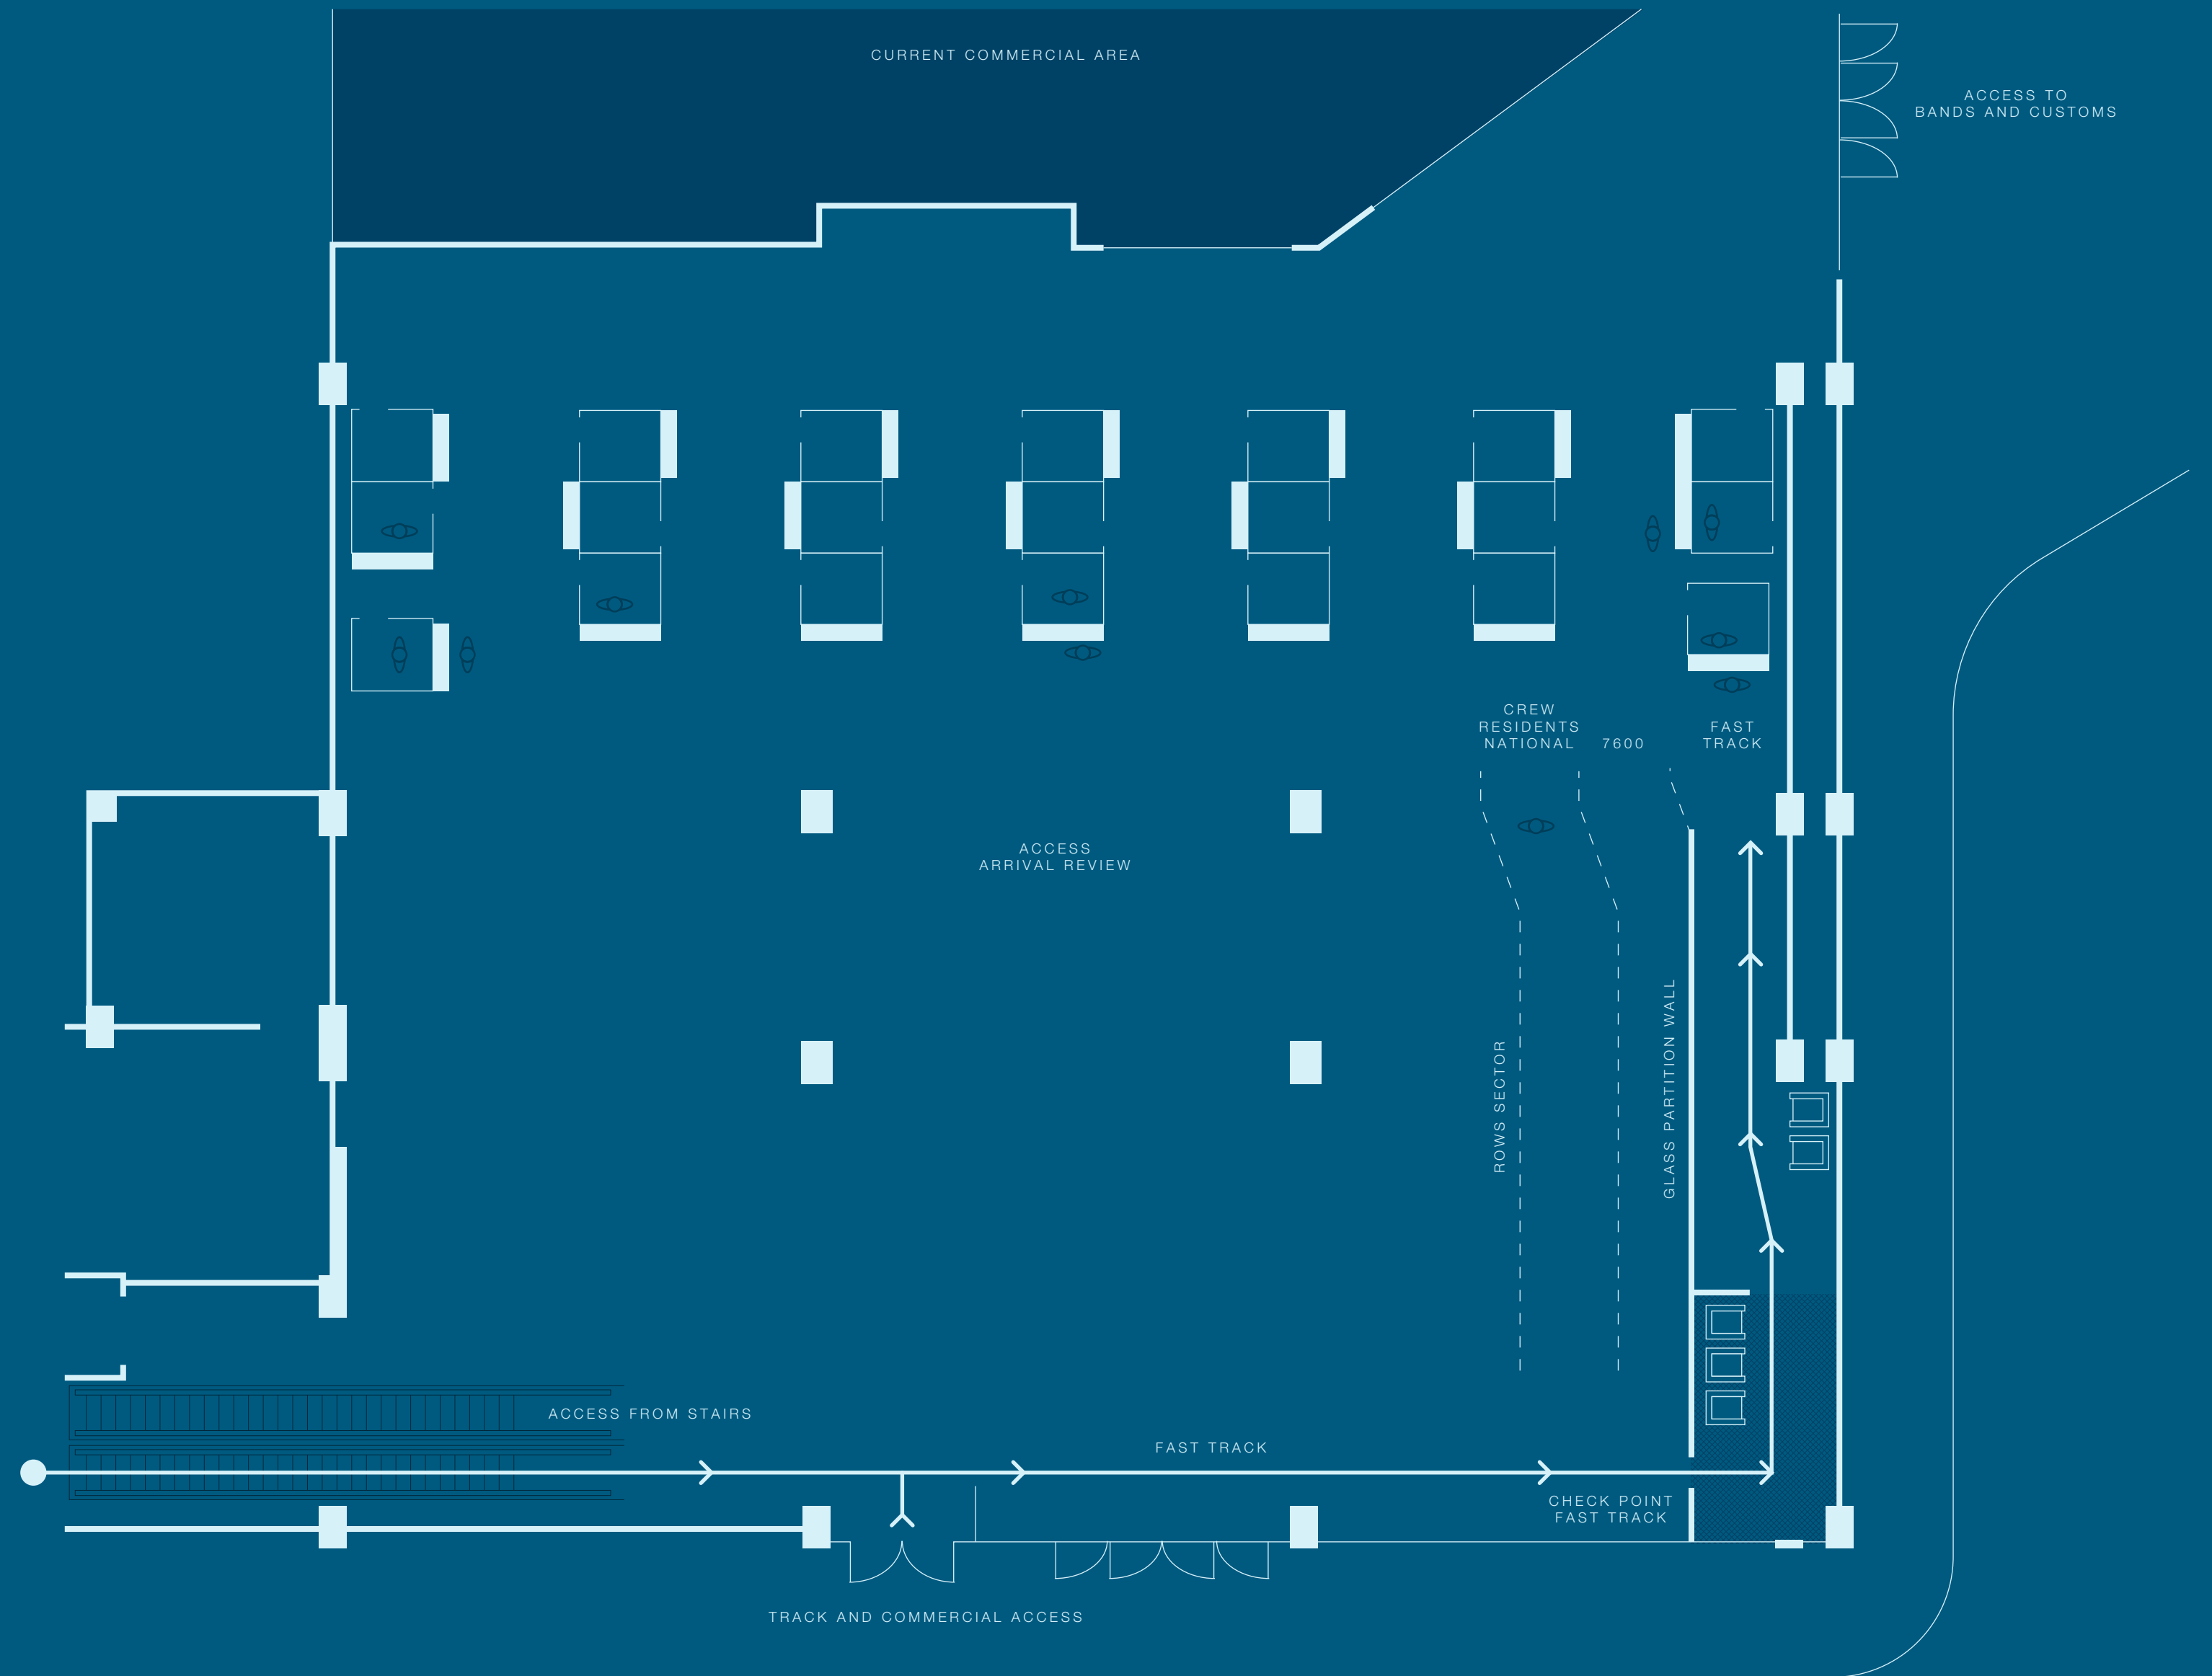

STEP 4 *FAST TRACK*

- The GA Team guides customers through the expedited migration process (5 minutes).
- Following that, they escort clients to the baggage claim area, facilitating a swift passage through the customs procedure (5 minutes).
- Finally, the GA Team hands over clients to our RLX team or another service (such as rental car services), allowing them to continue their transportation journey to their ultimate destination.
